

17-NYTD RFP Update #1

1/25/2017

All potential Respondents to RFP 17-NYTD should consider the following factors when preparing their proposals:

- 1) DCS would like to make sure all Respondents understand the minimum 60% participation rate applies to the youth who are in the out of care follow up population.
- 2) During the scoring of the Respondent's Technical Proposal section greater consideration will be given to vendors that use former foster youth in their engagement efforts.
